

## STATEMENT OF PURPOSE

RS28425 / H0110

This legislation is intended to expand the authority of governmental entities to enter into intergovernmental agreements to include ambulance districts to the current list of districts which provide “public facilities” as that term is defined in Section 67-8203, Subsection (24), Idaho Code. This amendment would allow governmental entities authorized to impose impact fees the authority to enter into agreements and lawfully distribute such fees to ambulance districts which provide “public facilities” and are directly affected by new development.

## FISCAL NOTE

There is no fiscal impact to the state General Fund because the amendment only affects the imposition of development impact fees by units of local government and taxing districts. Nor would the changes have a direct financial impact on cities or counties.
